

PRODUCT DESCRIPTION

Permacast DDA Stair treads combine high quality, durable cast aluminium treads with silicon carbide for additional slip resistant properties. We are able to customise each nosing to suit your individual requirements, whether they be for use in wet or dry conditions, Permacast Stair Treads are designed and tested for public access and, meet the exact requirements of disability areas that are subject to heavy trafficking.

Manufactured with either a straight or chamfered edge and available in both yellow or white profiles, our Stair Treads are designed to suit the needs of the visually impaired, and ensure they're assisted during their use of public infrastructure. This product is compliant with both the "Equality Act of 2010" and Part M of Building Regulations.
